Cumulative Index 1991

Volume 75

January	THYROID DISEASES, pages 1–239
March	URINARY TRACT INFECTIONS, pages 241–520
May	HEADACHE, pages 521–797
July	PEPTIC ULCER DISEASE, pages 799–1044
September	UNEXPLAINED CHEST PAIN, pages 1045–1223
November	UPDATE IN OTOLARYNGOLOGY I, pages 1225–1425

Note: Page numbers of articles and issues are in **boldface** type.

Abdominal pain, as migraine equivalent, 570
  in children, differential diagnosis of, 892
  in peptic ulcer disease, 835, 892
  in Zollinger-Ellison syndrome, 906
  organic causes for, incidence of, 1158
Acetaminophen, abuse of, in headache patients, 725
Acetylcholine, role in gastric acid secretion, 880
Achalasia, and chest pain, 1046
  psychiatric disorders in, 1082–1083
Acid activity, in peptic ulcer, 800–801
Acid perfusion test, for unexplained chest pain, 1070–1072, 1205–1206
  in gastroesophageal reflux disease, 930
Acoustic neuroma, dizziness with, 1255
  magnetic resonance imaging of, 1360
Acquired immunodeficiency syndrome. See *AIDS*.
Actinic cheilitis, in elderly, 1383, 1386
Adenocarcinoma, with Barrett's esophagus, 927
Adie's tonic pupil, and headache, 699–700
Adolescents, headaches in, **653–660**
  patient evaluation in, 655
  specific syndromes of, 655–659
Aerobactin, in urinary tract infection, 262–263
Affective disorder, chest pain with, 1179–1180
Afferent stimuli, altered neurosensory processing of, assessment of, 1194–1195
Age(ing). See also *Elderly*.
  and mortality from bleeding ulcers, 948
  otologic and vestibular manifestations of, 1374–1377
Agoraphobia, chest pain with, 1180
  in panic disorder, 1146–1147
  relationship to mitral valve prolapse, 1126
Agranulocytosis, with Graves' disease treatment, 89
AIDS, otolaryngologic aspects of, **1389–1398**
  patient care issues in, 1396–1397
  patient communication in, 1397
  renal disease in, 464–465
  urinary tract infection risk in, 400
Airway collapse, with snoring/sleep apnea, 1368
Alcohol, abuse of, in panic disorder, 1147
  injection of, for acute upper gastrointestinal bleeding, 847
    for bleeding ulcer, 957
  role in peptic ulcer disease, 834, 970–971
Alexithymia, in peptic ulcer patients, 871
Alginates, for gastroesophageal reflux disease, 933
Alkaline reflux gastritis, following peptic ulcer surgery, 1004
Alprazolam, for tinnitus, 1235
Amiodarone, and iodine excess, 172
  effect on thyroid function tests, 35–36
Ammonia, *Helicobacter pylori* production of, 816

Amniotic fluid, thyroid hormone levels in, 128–129
Amoxicillin, for acute sinusitis, 1300
for *Helicobacter pylori* infection, 825
Amphetamines, abuse of, in headache patients, 727
effect on thyroid function tests, 36
Ampicillin, for acute sinusitis, 1300
Analgesics, abuse of, in headache patients, 719
Androgens, effect on thyroid function tests, 35
Aneurysm, and headache, 528, 617, 619
Angina, coronary angiography for, findings in, 1097–1099
electrocardiographic abnormalities with, 1099
microvascular, **1097–1118**
abnormal nociception in, 1110–1112
cardiovascular investigations of, 1097–1098
evaluation for, in unexplained chest pain, 1206
invasive hemodynamic studies of, 1098–1102
National Institutes of Health studies of, 1109–1110
relationship to esophageal motility disorders, **1135–1142**
Angina pectoris, atypical, and panic disorder, 1125
hypothyroidism with, therapy for, 157
Angiofibroma, juvenile, epistaxis with, 1319
Angiography, for gastrinoma localization, in Zollinger-Ellison syndrome, 909
Angular cheilitis, in elderly, 1381
Antacids, for acid-related chest pain, 1077
for duodenal ulcer disease, 986, 989–990
for gastric ulcer disease, 994
for gastroesophageal reflux disease, 933
Anterior neck, painful mass in, differential diagnosis of, 64
Antiadrenergic drugs, for thyroid storm, 184
Antibiotics, for *Helicobacter pylori* infection, 825
Antibody-coated bacteria, in urinary tract infection localization, 319
Anticholinergics, for duodenal ulcer disease, 991
for peptic ulcer disease in children, 895–896
role in gastric acid suppression, 883
Anticoagulants, for sudden sensorineural hearing loss, 1246
Antidepressants, for chest pain with breathlessness, 1169–1170
for globus sensation, 1092
for mixed headache syndrome, 560–561
tricyclic, effects of, 561
for chest pain with breathlessness, 1169–1170
for duodenal ulcer disease, 991–992
for muscle contraction headaches, 601
in elderly, 664
for postherpetic neuralgia, 670
in peptic ulcer disease, 872
Anti-inflammatory therapy, for thyroid eye disease, 109
Antimicrobial agents, for urinary tract infection, 344
prophylactic, for nosocomial urinary tract infection, 504
Antithyroid drugs, for Graves' disease, 87–90
for thyroid storm, 183–184
Antral gastritis, chronic active, in peptic ulcer disease, 806
Antrectomy, for bleeding ulcer, 960
with truncal vagotomy, for peptic ulcer disease, 1001, 1002
Anxiety. See also *Anxiety disorder*.
and noncardiac chest pain, 1164
in panic disorder, 1144
with esophageal spasm, 1085
with gastroesophageal reflux disease, 1089
Anxiety disorder, chest pain with, 1143, 1179–1180
headache associated with, 708
in peptic ulcer patients, 872–873
panic disorder vs, 1152
with microvascular angina, 1110
with mitral valve prolapse, 1121
Aphthous ulcer, of oropharynx, in AIDS, 1393
Aqueductal stenosis, acute headache in, radiology of, 536
Arterial bruits, and tinnitus, 1226–1227
Arteriography, for bleeding ulcer, 960
Arteriovenous malformation, and headache, 530, 619–620
and tinnitus, 1225–1226
Arteritis, giant cell (temporal), cluster headache vs, 583
headache with, differential diagnosis of, 583, 753, 755
emergency treatment of, 759
in elderly, diagnosis and treatment of, 666–668
visual loss with, 701–702
headache in, 627
L-Asparaginase, effect on thyroid function tests, 35
Aspirin, and peptic ulcer disease, 807, 834–835, 994–995
and tinnitus, 1230–1231
Asthenopia, and headache, 693–694
Asthma, headache with, management of, 637
Ataxia, with aging, 1377

Atenolol, for migraine prophylaxis, 556
Atrial pacing, in angina patients, findings in, 1100
increased coronary vascular resistance during, 1103–1104
Atropine, effect on gastric acid secretion, 912
Auditory canal, internal, computed tomography/magnetic resonance imaging of, 1357–1359
Auditory testing, in dizziness, 1254
Autoantibodies, thyroid, measurement of, 13–15
Autoimmune disorders, and sudden sensorineural hearing loss, 1243
Autonomic nervous system, transmitters in, 775

Back pain, organic causes for, incidence of, 1158
Baclofen, for trigeminal neuralgia, 607–609
Bacteremia, with long-term catheterization, 484
Bacterial adherence, to uroepithelial cells, 255–259
Bacterial adhesins, in urinary tract infections, 256–258
Bacterial colony counts, for urinary tract infection in children, 329
Bacterial hemolysins, in urinary tract infection, 262
Bacterial polysaccharides, in urinary tract infection, 261–262
Bacteriuria, assays for, in urinary tract infection diagnosis, 321
asymptomatic, in children, 336
epidemiology of, 288
classification and clinical presentation of, 244–245
criteria for, 242
definition of, 242
in adult women, 473–474
in children, 472
in elderly, 476–477
laboratory diagnosis of, 382
prevalence of, 376
significance of, 380–382
in pregnancy, 359–368. See also *Pregnancy*.
inflammatory response to, 482
leukocyte esterase-nitrite dipstick assay of, 499
risk factors for, 482
screening for, in impaired host, 400–401
urinalysis of, 315–316
with catheterization, 481
complications of, prevention of, 487–488
prevention of, 485–487
Barbiturates, abuse of, in headache patients, 726–727
Barosinusitis, acute, facial pain in, 685–687
Barrett's esophagus, in gastroesophageal reflux disease, 927–928
Behavioral treatment, for chest pain, noncardiac, 1198–1200
with breathlessness, 1168–1169
for esophageal disease, 1092
for headaches, 714
Benign positional vertigo, with aging, 1377
Benzodiazepines, abuse of, in headache patients, 727
for chest pain with breathlessness, 1170
Bernstein test, for chest pain, 1070–1072, 1205–1206
Beta-blockers, for chest pain with breathlessness, 1170
for Graves' disease, 89
for maternal thyrotoxicosis in pregnancy, 139
for migraine prophylaxis, 556
Bethanechol, for gastroesophageal reflux disease, 933
Bethanechol test, for esophageal motility disorders, 1050
Bicarbonate, abnormal secretion of, in peptic ulcer, 803, 804
Biofeedback training, for migraine headaches, 558–559
for muscle contraction headaches, 601
in elderly, 664
Bismuth, as cytoprotective agent, 856
for duodenal ulcer disease, 991
for gastric ulcer disease, 994
for *Helicobacter pylori* infection, 824–825
for peptic ulcer disease, relapse with, 1019, 1023
Bladder, bacterial invasion of, 482
enlargement of, in pregnancy, 361
host defenses in, against urinary tract infection, 279
Bladder neck/urethral spasm syndrome, 421
Bleeding, cerebral, detection of, 542
headaches due to, 617–624
gastrointestinal, active, and mortality from bleeding ulcers, 948
Dieulafoy's lesion in, 859
in peptic ulcer disease, 837, 841
clinical features of, 844
complications of, 844
endoscopy for, 843–845
surgery for, 1005–1006, 1017
in stress ulceration, 859
parenchymal, acute headache in, radiology of, periocular, headache with, 702
subarachnoid, headache with, differential diagnosis of, 753–754

Bleeding *(Continued)*
emergency treatment of, 758
radiology of, 525–527
subconjunctival, headache with, 702
subdural, subacute, chronic headache in, 541
Bleeding ulcers, management of, **947–965**
Blood constituents, changes in, with migraine headache, 765–766
Blood flow, in peptic ulcer disease, 803–804
Blood pressure, and mortality from bleeding ulcers, 948
control of, in epistaxis, 1316
Blood transfusion, for bleeding ulcer, 952
Bougienage dilatation, for noncardiac chest pain, 1059
Brain, abscess of, headache with, differential diagnosis of, 755–756
role in unexplained chest pain, future research on, 1212–1214
Breastfeeding, in maternal thyrotoxicosis, 139–140
Breathlessness, unexplained chest pain and, **1157–1173**
Bronchopulmonary manifestations, of AIDS, 1395
Bundle branch block, in microvascular angina, 1106

Caffeine, abuse of, in headache patients, 720, 722–724
and muscle contraction headaches, 600–601
role in peptic ulcer disease, 834, 971
Calcium channel blockers, for chest pain with normal coronary angiogram, 1112–1113
for migraine prophylaxis, 557
Calcium infusion test, for Zollinger-Ellison syndrome, 908
Calculus(i). See *Renal calculus*.
Caliectasis, plain film tomography of, 428
Caloric restriction, thyroid hormone indices in, 29–30
Cancer, of head and neck, in elderly, 1386–1387
Candidiasis, oropharyngeal, in AIDS, 1391–1393
renal, 464
Capsaicin, for postherpetic neuralgia, 670
Carbamazepine, for trigeminal neuralgia, 607–609
Carbenoxolone, as cytoprotective agent, 855
for duodenal ulcer disease, 992
Carbon dioxide challenge tests, for panic disorder, 1148–1149
Carcinoma, cutaneous, otalgia with, 678
gastric, following peptic ulcer surgery, 1004
oral, in elderly, 1383
Cardiac catheterization, for chest pain with normal coronary angiogram, 1112
Cardiac evaluation, for unexplained chest pain, 1205
Cardiac medication, withdrawal of, in noncardiac chest pain with breathlessness, 1168
Cardiac/respiratory system, in Graves' disease, 82
Cardiac sensitivity, abnormal, in chest pain syndromes, 1110–1112
Cardiac transplant recipients, urinary tract infection risk in, 398
Cardio-esophageal junction, stricture at, in gastroesophageal reflux disease, 931
Cardiovascular disorders, and tinnitus, 1229
in thyrotoxicosis in elderly, 160–161
Cardiovascular system, in myxedema coma, 186
Carotid artery, dissecting aneurysm of, headache in, 626–627
endarterectomy of, headache following, 628
giant aneurysm of, 621
occlusion and stenosis of, headache in, 624–626
Carotid-cavernous fistula, and headache, 699
Graves' ophthalmopathy vs, 103, 104
Carotidynia, otalgia in, 679
Catheterization, and urinary tract infection, **481–493**
complications of, treatment of, 489–490
intermittent, for urinary tract infection prevention, 488–489
long-term, and urinary tract infection, 483–485
short-term, and urinary tract infection, 483
suprapubic, for urinary tract infection prevention, 489
urethral, prevention of, 488–489
Cautery, for epistaxis, 1314, 1316
Cavernous hemangioma, acute headache in, radiology of, 532
Cell turnover, role in cytoprotection, 854
Central inhibition, impaired, and migraine headache, 769–771
Central nervous system, disease of, dizziness with, 1255
in Graves' disease, 82
role in gastric acid secretion, 879
Cerebellar disease, dizziness with, 1255
Cerebellar hemorrhage, headaches due to, 622–623
Cerebellopontine angle, computed tomography/magnetic resonance imaging of, 1357–1359

Cerebral artery, middle, anastomosis to superficial temporal artery, headache following, 628
arteriovenous malformation of, 621
dissecting aneurysm of, headache in, 626–627
occlusion of, headache in, 625
Cerebral hemorrhage, headaches due to, 617–624
Cerebral veins, thrombosis of, headache in, 625–626
Cerebrovascular disease, headaches due to, **617–630**
in elderly, 668–669
Cerebrovascular regulation, and migraine headache, 774–776
Cervical manifestations, of AIDS, 1394–1395
Cervical spondylosis, in muscle contraction headaches, 598
Cheilitis, in elderly, actinic, 1383, 1386
angular, 1381
Chemical sense, common, 1327
Chemosensory disorders, **1321–1353**
causes of, 1339–1344
Chemosensory terms, definition of, 1328
Chest pain, acid-related, acid perfusion test of, 1070–1072, 1205–1206
ambulatory pH monitoring of, 1072–1074
clinical history of, 1070
evaluation of, 1069–1072
mechanisms for, 1067–1069
prevalence of, 1072–1074
radiography and endoscopy in, 1070
treatment of, 1076–1078
esophageal causes of, 1075–1076
cardiac source vs, 1136–1140
gastroesophageal reflux disease, **1065–1080**
motility disorders, **1045–1063**, 1135
in emergency department, psychiatric aspects of, **1175–1188**
case recognition, 1176, 1182–1183
comorbidity, 1177, 1183
emergency services utilization, 1176, 1181–1182
prevalence, 1175–1181
research proposals for, 1183–1185
review of literature, 1177–1183
in mitral valve prolapse, 1122–1124
in panic disorder, 1124–1125
noncardiac, behavioral treatment of, 1198–1200
characteristics of, 1163
coping strategies used in, 1195–1198
diagnostic certainty in, 1163–1166
hyperventilation and, 1165–1166
longitudinal perspective on, 1165
models of, 1162–1163
pain measurement in, unresolved issues in, 1191–1195
pathophysiologic mechanisms in, 1164–1165
physical signs in, 1165
psychiatric disorder with, 1164
symptoms associated with, 1164
organic causes for, incidence of, 1158
staged evaluation of, 1140
syndromes of, abnormal nociception in, 1110–1112
National Institutes of Health studies of, 1109–1110
unexplained, **1045–1218**
and breathlessness, **1157–1173**
drug treatment of, 1169–1170
epidemiology of, 1159
management of, 1166–1168
psychological treatments of, 1168–1169
diagnosis of, approach to, **1203–1208**
new onset, 1204–1205
recurrent, 1205–1207
future research on, **1209–1218**
role of esophagus, 1209–1211
noncardiac causes of, 1161–1162
role of hyperventilation in, 1160–1161
with gastroesophageal reflux disease, 929
with normal coronary arteries, 1097–1099, **1189–1202**
management of, 1112–1115
Childhood periodic syndromes, as migraine equivalents, 569–570
Children, AIDS in, otolaryngologic problems in, 1395
bacteriuria in, 472
asymptomatic, epidemiology of, 288
peptic ulcer disease in, **889–902**
pyuria in, with urinary tract infection, 330
urinary tract infection in, **287–297**
adhesins in, 291–292
aerobactin in, 292
antimicrobial therapy for, 333, 335
asymptomatic bacteriuria in, 336
clinical presentation of, 327–328
complicated, 334–335
diagnosis of, 329–331
diagnostic imaging in, 332–333
epidemiology of, 287–290
etiologic agents of, 291
febrile, 290
hemolysin in, 292–293
history of, 328
host factors associated with, 293–294
immunity in, 294
incidence of, 289
management of, **327–338**
microbial determinants of, 291–293
natural history of, 290–294
pathophysiology of, 331–332

Children *(Continued)*
physical examination in, 328–329
recurrent, 335–336
resistance to serum killing in, 292
role of urologist in, 471–472
route or level of infection in, 293
secretory IgA in, 294
serotypes of, 291
sexual abuse and, 290
signs and symptoms of, 328
soluble products in urine in, 294
surgical intervention in, 336–337
uncomplicated, 334
vesicoureteral reflux in, 293–294
virulence factors in, 291
Chinese restaurant syndrome headache, 740–741
Chlorphenesin, for trigeminal neuralgia, 607–609
Cholesteatoma, computed tomography of, 1358
with chronic otitis media, 1280, 1289–1291
with chronic pyelonephritis, 458–460
Cigarette smoking, and peptic ulcer disease, 808, 834
role in relapse, 1018, 1025
Cimetidine, for acid-related chest pain, 1077
for duodenal ulcer disease, 986
for gastric acid hypersecretion, 911
for gastric ulcer disease, 994
for gastroesophageal reflux disease, 932
for peptic ulcer disease, in children, 896
maintenance therapy with, duration of, 1026
relapse with, 1021
schedule for, 1031
relapse prevention with, 1022
for stress ulceration, 859
Ciprofloxacin, systemic, for chronic suppurative otitis media, 1284
Circumcision, and urinary tract infection, epidemiology of, 288–289
Cisapride, for gastroesophageal reflux disease, 933
Cleidocranial dysostosis, computed tomography of, 1362
Clonazepam, for chest pain with panic disorder, proposed research on, 1185
Clonidine, for migraine prophylaxis, 556–557
Clot, sentinel, and mortality from bleeding ulcers, 948
Cluster headache(s), autonomic nervous system changes in, 585–586
classification of, 579–580
cluster and remission periods in, 582
description of, 580–581
diagnosis of, **579–594**
differential, 582–584, 753, 757
features of, 580–582
emergency treatment of, 760
experimental approaches to, 588–589
following head injury, 645
histamine in, 584–585
hormonal changes in, 584–585
in elderly, diagnosis and treatment of, 664–665
pathogenesis of, 586
pathophysiology of, 584–586
platelet serotonin and monoamine oxidase in, 584–585
treatment of, 586–589
patient education in, 587
prophylactic, 587–588, 587–589
symptomatic, 589
vascular changes in, 584–585
Coagulation, thermal, for bleeding ulcer, 954
Cocaine, abuse of, in headache patients, 727
Cochlear implants, **1267–1276**
commercially available, 1270–1272
components of, external, 1268
internal, 1269
function of, 1267–1269
performance characteristics of, 1272
reinsertion of, 1273
results of, 1273–1274
role of rehabilitation in, 1274–1275
surgery for, 1269–1270
Cochlear membrane, rupture of, and sudden sensorineural hearing loss, 1242
Cogan's syndrome, and sudden sensorineural hearing loss, 1243
Cognitive treatment, for chest pain with breathlessness, 1168–1169
Combined headaches. See *Muscle contraction headache(s).*
Common chemical sense, 1327
Computed tomography, basic principles of, 1355–1357
for gastrinoma localization, in Zollinger-Ellison syndrome, 909
magnetic resonance imaging vs, **1355–1366**
of ostiomeatal complex, 1303
of renal inflammatory disease, 432–434
Concussion, definition of, 641
Conjunctival disease, and headache, 694–695
Connective tissue, changes in, in elderly, 1373–1374
Contraction wave abnormalities, psychiatric disorders with, 1085
Contrast agents, for renal radiology, 435–437
adverse reactions to, 436
nephropathy induced by, 436–437
physical properties of, 435–436

for sudden sensorineural hearing loss, 1246
Convergence insufficiency, and headache, 694
Coping strategies, in chest pain with normal coronary arteries, **1189–1202**
literature on, 1197–1198
Corneal disease, and headache, 694–695
Coronary artery(ies), disease of, coping strategies in, 1197
with gastroesophageal reflux, future research on, 1211
spasm of, and chest pain, 1137
in mitral valve prolapse, 1123
Coronary blood flow reserve, studies of, 1102–1108
Coronary vascular resistance, during rapid atrial pacing, 1103–1104
Coronary vascular responses, abnormal, causes of, 1108
Corticosteroids, for giant cell arteritis, in elderly, 667
for nasal polyposis, 1331–1332
for sudden sensorineural hearing loss, 1246
for thyroid storm, 184
Coughing, with gastroesophageal reflux disease, 929
Counseling, in headache treatment, 714
Cranial nerve palsies, multiple, and headache, 698
Cranial neuralgias, diagnosis and treatment of, **605–615**
Cranial tissues, pain sensitivity of, 750
Craniocerebral trauma, chronic headache in, radiology of, 536, 539
Craniospinal pressure dissociation, and benign exertional headache, 736
Cretinism, endemic, iodine deficiency and, 171, 199
iodine for, 175
Cutaneous problems, of head and neck, in elderly, 1383–1386
Cyproheptadine, for migraine prophylaxis, 558
Cystic fibrosis, and peptic ulcer disease in children, 893
Cystic renal disease, urinary tract infection with, natural history of, 309
Cystitis, acute, uncomplicated, in women, 345–348
allowable charges for, relative importance of, 498
classification and clinical presentation of, 245–246
definition of, 243
in adults, natural history of, 301
interstitial, in urinary tract infection, 474–475
Cytoprotection, agents for, 855–856
and stress ulceration, **853–863**
definition of, 853
pathophysiology of, 853–855

Da Costa's syndrome, 1157
Decongestants, for acute sinusitis, 1300
Delirium, headache associated with, 710
Dental disorders, and tinnitus, 1231
Dependency, and peptic ulcer disease, 868
Depression, chest pain with, 1164, 1179–1180, 1206
headache associated with, 599, 708
in panic disorder, 1145–1146
in peptic ulcer disease patients, 872
spreading, of Leao, and migraine headache, 767–769
with esophageal spasm, 1085
with gastroesophageal reflux disease, 1089
Dermatitis, seborrheic, in elderly, 1385
Diabetes mellitus, and sudden sensorineural hearing loss, 1242
thyroid hormone indices in, 31
urinary tract infection with, complications of, 394–396
natural history of, 309
predisposing factors for, 281–282
risk of, 394–396
Dialysis, for thyroid storm, 184
Diarrhea, following peptic ulcer surgery, 1004
in Zollinger-Ellison syndrome, 906
Diazepam, for vestibular disorders, 1258
Diet, and migraine headache, 550–551
for duodenal ulcer disease, 985
for peptic ulcer disease, 834, **967–979**
Dieulafoy's lesion, 859–861
Diltiazem, for noncardiac chest pain, 1058–1059
for nutcracker esophagus, 1048
Diplopia, headache and, 697–699
Dipyridamole test, of coronary flow reserve, correlation with ergonovine sensitivity, 1105–1106
Disease, mechanisms of, molecular biology and, 45
Diuretics, for sudden sensorineural hearing loss, 1245
Dizziness, **1251–1260**
blood tests for, 1253–1254
differential diagnosis of, 1255–1257
imaging studies for, 1254–1255
organic causes for, incidence of, 1158
vestibular disorders and, treatment of, 1257–1259
with aging, 1376
workup for, 1252–1255
DNA, recombinant, and diagnostics, 44–45

Dopamine, effect on thyroid function tests, 35
Doxorubicin, for metastatic gastrinoma, 916
Drainage, for chronic otitis media with effusion, 1288
Drug(s), abuse of, in headache patient, **717–732**
complications of, 721
diagnosis of, 720–721
prophylaxis against, 729
substances abused, 721–728
treatment of, 728–729
and tinnitus, 1230–1231
dependency/withdrawal from, headache associated with, 709
effect on thyroid function tests, **27–39**
for chest pain with breathlessness, 1169–1170
headache exacerbation by, 632–633
headache treatment with, 633–634
Dumping syndrome, following peptic ulcer surgery, 1004
Duodenal ulcer disease, acute therapy of, 984–992
bicarbonate output with, 804
diet for, 985
endoscopy for, 843
gastric ulcer vs, psychologic differences in, 870–871
genetic susceptibility to, 822
H_2-receptor antagonists for, 985–987
recurrence with, 1023
Helicobacter pylori and, 821–823
incidence of, 831–835
injury and inflammation in, 810
operations for, undesirable consequences of, 1001
recurrent, incidence of, 1023–1024
refractory, management of, 996
relapse rate of, 1021
Duodenitis, with *Helicobacter pylori* infection, 806
Dural sinus, thrombosis of, headache in, 625–626
Dysequilibrium, with aging, 1376
Dyspepsia, in peptic ulcer disease, 836
nonulcer, definition of, 943–944
Helicobacter pylori and, 824
Dysphagia, with esophageal motility disorders, 1047
with gastroesophageal reflux disease, 929
Dysphonia, in elderly, 1378
Dyspnea, organic causes for, incidence of, 1158
Dysthymia, chest pain with, 1179–1180
Dysuria, causes of, 246
differential diagnosis of, 475
in women, diagnosis of, 498
Eagle's styalgia, otalgia in, 679
Ear, external, disorders of, with aging, 1375
innervation of, 677–678
pain in. See *Otalgia*.
Ear drops, for chronic suppurative otitis media, 1284
Economic analysis, methods of, 496–497
overview of, 495–496
Economic considerations, in urinary tract infection, **495–513**
Edema, organic causes for, incidence of, 1158
Edrophonium test, for esophageal motility disorders, 1049, 1055–1056
Effort syndrome, 1158
Elderly, bacteriuria in, 476–477
asymptomatic, 245
laboratory diagnosis of, 382
prevalence of, 376
significance of, 380–382
headache in, diagnosis and treatment of, **661–675**
hyperthyroidism in, 160–162
hypothyroidism in, 153–160
multinodular goiter in, therapy of, 153
otolaryngologic problems in, **1373–1388**
pyuria in, laboratory diagnosis of, 383
thyroid cancer in, 162
thyroid disease in, **151–167**
thyroid function in, anatomy and physiology of, 151–153
thyrotoxicosis in, 160–162
urinary tract infection in, **375–390**
bacteriuria in, significance of, 380–382
clinical features of, 379–380
diagnostic imaging in, 384
epidemiology of, 375–377
host defense mechanisms in, 378–379
laboratory diagnosis of, 382–384
management of, 384–387
lower tract, 385–387
upper tract, 384–385
microbiology of, 379
pathogenesis of, 377–378
predisposing factors for, 281
Electrical stimulation, for tinnitus, 1236
Electrocardiographic abnormalities, with snoring/sleep apnea, 1368
Electrocardiographic monitoring, ambulatory, in microvascular angina, 1107
Electrocautery, for acute upper gastrointestinal bleeding, 845–846
for bleeding ulcer, 956–957
Electrolytes, alterations in, in myxedema coma, 186
Emergency department, chest pain in, psychiatric aspects of, **1175–1188**. See also under *Chest pain*.

patient psychopathology in, proposed research on, 1184
Emotional expression, in peptic ulcer patients, 871
Endolymphatic hydrops, dizziness with, 1257
Endoscopy, for hemostasis, in bleeding ulcer, 956–959
for peptic ulcer disease monitoring, 1015
in Barrett's esophagus diagnosis, 927
therapeutic, for Dieulafoy's lesion, 861
Endothelial-derived relaxing factor-nitric oxide, in migraine headache, 779–780, 782–783
Endothelin-1, in migraine headache, 780, 782–783
Endotheliopathy, migraine headache as, 777–778, 782–783
Environment, and migraine headache, 551
Epidural abscess, otalgia with, 678
Epidural hematoma, headaches due to, 623–624
Epiglottitis, in AIDS, 1393
Epinephrine injection, for acute upper gastrointestinal bleeding, 847
for bleeding ulcer, 957
Epistaxis, **1311–1320**
in elderly, 1380
management of, 1315
equipment for, 1316
with active bleeding, 1315–1319
without active bleeding, 1312–1315
severity of, 1313
surgical ligation for, 1319
Epithelial receptors, of uropathogenic *Escherichia coli* adhesins, 258–259
Ergonovine test, for esophageal motility disorders, 1050
of coronary blood flow reserve, 1102–1105
Ergotamine, abuse of, in headache patients, 719–720, 722
for cluster headaches, 587, 589
for migraine headaches, 551–555
in elderly, 662
rebound phenomenon with, 553–554
side effects of, 553
Erythroplasia, in elderly, 1383
Escherichia coli, adherence of, molecular aspects of, 265–267
in urinary tract infections, virulence of, 254–255
uropathogenic adhesins of, epithelial receptors of, 258–259
Esophageal balloon distention, for esophageal motility disorders, 1050
Esophageal disorders. See also *Esophageal motility disorders*.
acid-induced, in Zollinger-Ellison syndrome, 906
and chest pain, 1161–1162
manometry of, findings in, 1053
psychiatric disorders with, **1081–1096**
potential roles of, 1082
therapeutic implications of, 1091–1092
symptom-oriented analysis of, 1053–1054
Esophageal motility disorders, and chest pain, **1045–1063**, 1075–1076
future research on, 1209–1211
investigation and treatment of, 1056–1059
manometry for, 1046–1049
pressure monitoring in, 1057
provocative tests for, 1049–1050
psychiatric disorders in, 1082–1088
relationship to microvascular angina, **1135–1142**
types of, 1047
with heartburn, 1068
Esophageal reflux, typical, with gastroesophageal reflux disease, 929
Esophageal spasm, diffuse, and chest pain, 1046, 1137
psychiatric disorders in, 1084–1088
Esophagitis, erosive, in gastroesophageal reflux disease, 931
Esophagomyotomy, for noncardiac chest pain, 1059
Esophagus, ambulatory pH monitoring of, 1072–1074
ambulatory pressure monitoring of, 1050–1056
clinical relevance of, 1055–1056
data analysis of, 1052–1055
results in healthy subjects, 1051–1052
cancer of, psychiatric disorder with, 1090–1091
evaluation of, for unexplained chest pain, 1205
stricture of, with Barrett's esophagus, 928
with scleroderma, 934
Estrogens, effect on thyroid function tests, 35
Ethmoid sinuses, computed tomography of, 688
Eustachian tube, dysfunction of, in chronic otitis media, 1279, 1288
patulous, and tinnitus, 1227
Euthyroidism, confirmation of, algorithm for, 19–20
in pregnancy, 125–126
Exercise testing, in angina, findings in, 1100–1101
microvascular, 1105–1107
ischemic electrocardiographic responses to, 1099
Extraocular muscles, disorders of, Graves' ophthalmopathy vs, 104–106
in Graves' ophthalmopathy, 102
surgery of, in thyroid eye disease, 114–115

Eyelid surgery, in thyroid eye disease, 115–116
Eyestrain, and headache, 693–694

Facial pain. See also *Midfacial pain; Nasal pain.*
  atypical, diagnosis and treatment of, 613–614
  chronic, classification of, 606
Facial trauma, computed tomography of, 1361
  epistaxis with, 1319
Famotidine, for acid-related chest pain, 1077
  for duodenal ulcer disease, 986
  for gastric ulcer disease, 994
  for gastroesophageal reflux disease, 932
  for peptic ulcer disease, 1022
Fasting, thyroid hormone indices in, 29–30
Fatigue, organic causes for, incidence of, 1158
Fatty acids, dietary, role in peptic ulcer disease, 975
Fertility, in thyrotoxicosis, 122–123
Fiber, dietary, role in peptic ulcer disease, 973–975
Fibromuscular dysplasia, headache in, 627
Fimbriae, mannose-sensitive, in bacterial infection, 257
  of *Escherichia coli*, in urinary tract infection, 266
Flunarizine, for migraine prophylaxis, 557
5–Fluorouracil, for metastatic gastrinoma, 916
Fourth nerve palsy, and headache, 698
Free thyroxine, immunoassays of, 7
  disparate results with, cause of, 9–10
  performance of, 8–9
  index of. See *Free thyroxine index.*
  measurement of, 7–11
Free thyroxine index, and related indirect methods, 7–11
  clinical performance of, 10–11
Frontal sinus, computed tomography of, 688
Fundoplication, for gastroesophageal reflux disease, 935
Fungal infections, of external ear, in AIDS, 1390
  of renal parenchyma, 461–464
Furosemide, effect on thyroid function tests, 35

Gastrectomy, subtotal, for bleeding ulcer, 960
  for peptic ulcer disease, 1001
  total, for gastric acid hypersecretion, 913–914
Gastric acid, control of, for ulcer healing, 996
  hypersecretion of, and peptic ulcer relapse, 1018–1019
    in Zollinger-Ellison syndrome, 907
    medical management of, 911–913
    surgical management of, 913–914
  secretion of, **877–887**
    Helicobacter pylori and, 821
    in peptic ulcer disease in children, 890–891
    parietal cells in, 878–879
    pharmacologic inhibition of, 912
    psychologic profile and, 867
    receptors for, 884–885
    regulation of, 878–885
  suppression of, 883–884
Gastric epithelial cells, renewal of, and stress ulceration, 858
Gastric injury, stress-related, **853–863**. See also *Stress ulceration.*
Gastric metaplasia, in peptic ulcer disease, 806
Gastric motility, in peptic ulcer, 801
Gastric mucosa, *Helicobacter pylori*
    predilection for, 816
  protection of, 853–854
  sequence of injury of, 855
Gastric outlet obstruction, in peptic ulcer disease, 837
    surgery for, 1008
Gastric proton pump inhibitors, in gastric acid secretion, 882–883
Gastric spiral organisms, search for, 815–816
Gastric ulcer, duodenal ulcer vs, psychologic differences in, 870–871
  Helicobacter pylori and, 823–824
  incidence of, 831–835
  refractory, management of, 996–997
  treatment of, 993–994
Gastric vagotomy, for peptic ulcer disease, 1003–1004
Gastrin, role in gastric acid secretion, 880–881, 912
Gastrinoma, in Zollinger-Ellison syndrome, 904, 908–911
  metastatic, treatment of, 916–917
  nonmetastatic, treatment of, 914–916
  sporadic, localization of, 915
Gastritis, with *Helicobacter pylori* infection, 820–821, 823
Gastroesophageal reflux disease, **923–940**
  and chest pain, 1057, **1065–1080**
    future research on, 1210
  and heart disease, 1074–1075
  coping strategies in, 1197
  diagnostic studies of, 930–932
  epidemiology of, 923–924

medical treatment of, 932–934
pain thresholds in, 1192
pathophysiology of, 924, 927
psychiatric disorders with, 1088–1090
surgery for, 935

    treatment of, 634–635
      emergency, 758–759
  with snoring/sleep apnea, 1368
Hypertensive encephalopathy, headache in, 627–628
Hyperthyroidism. See also *Graves' disease; Thyrotoxicosis.*
  and pregnancy, 135–141
  diagnosis of, algorithm for, 17–18
  in elderly, 160–162
  iodine for, 175
  molecular biology and, 53–54
  treatment for, follow-up of, 20
Hypertriglyceridemia, in subclinical hypothyroidism, 159
Hyperventilation, and chest pain, 1160–1161, 1165–1166
  behavioral treatment of, 1198
Hypochlorhydria, with *Helicobacter pylori* infection, 817
Hypothyroidism, and pregnancy, 130–135
  and reproductive dysfunction, 121–122
  causes of, 186
  diagnosis of, algorithm for, 18–19
  fetal and neonatal, 132–135
    diagnosis and treatment of, 134–135
    drug-induced, 134
    incidence and etiology of, 133–134
    transient, 134
  in elderly, 153–160
    etiology of, 155–156
    prevalence of, 154–155
    screening for, 158
    subclinical, 158–160
    therapy for, 156–158
  maternal, in pregnancy, 131–132
Hypoventilation, alveolar, with snoring/sleep apnea, 1368
Hypoxic theory, of migraine headache, 764–766

Ice cream headache, 739–740
Immune response, in bacterial prostatitis, 411–413
  to urinary tract infection, 280–281
Immunometric assays, of thyroid-stimulating hormone, 3–6
Immunomodulatory agents, for inflammatory eye disease, 110
Infants, urinary tract infection in, 333–334
Infection, and sudden sensorineural hearing loss, 1241–1242
  control programs for, for nosocomial urinary tract infection, 504
  dizziness with, 1256
  in myxedema coma, 187
  thyroid hormone indices in, 32–33
Inferior rectus muscle, enlarged, in Graves' ophthalmopathy, 102
  metastasis to, Graves' ophthalmopathy vs, 105
Inflammation, in migraine headache, 546
Inflammatory eye disease, medical therapies for, 111
  treatment of, 109–111
Injection therapy, for acute upper gastrointestinal bleeding, 847–848
  for bleeding ulcer, 954–955, 957–958
Insomnia, organic causes for, incidence of, 1158

Interventional uroradiology, of renal inflammatory disease, 434–435
Intraesophageal pressure, ambulatory monitoring of, 1050–1056
Intranasal medication, head-down position for, 1332–1333
Intrarenal abscess, classification and clinical presentation of, 248–250
  definition of, 243
Iodide, for maternal thyrotoxicosis in pregnancy, 139
Iodine, and thyroid disease, **169–178**
  deficiency of, 170–172
    and thyroid cancer, 213
  excess of, 172–175
  for thyroid storm, 184
  therapeutic uses of, 175–176
Iodine-131, for goiter, 206
Iodine-containing preparations, common, 172
Iodized oil, for goiter, 205
Irritable bowel syndrome, coping strategies in, 1197
  pain thresholds in, 1192
  with esophageal motility disorders, 1048

Jod-Basedow disease, with iodine excess, 174

K capsular polysaccharides, bacterial, in urinary tract infection, 261–262
Kaposi's sarcoma, in AIDS, laryngeal, 1393
  nasal, 1391
  of external ear, 1390
  oropharyngeal, 1391–1392
Keratoacanthomas, in elderly, 1386
Keratosis, frictional, oral, in elderly, 1383, 1385
  seborrheic, in elderly, 1386
Kidney(s). See also *Renal*.
  alterations in, in myxedema coma, 186
  disease of, cystic, urinary tract infection with, natural history of, 309
    thyroid hormone indices in, 31–32
  enlargement of, in pregnancy, 361
  failure of, chronic, thyroid hormone indices in, 32
    urinary tract infection risk in, 393
  function of, changes in, with asymptomatic urinary tract infection, 303
    disorders of, with acute pyelonephritis, 304
  host defenses in, against urinary tract infection, 280
  infection of, *Candida*, 464
    occult, factors associated with, 340
  radiology of, **425–469**
  plain film tomography of, 426, 428

Labyrinthectomy, for vertigo, 1258
Labyrinthitis, and sudden sensorineural hearing loss, 1241
Lactate challenge test, for panic disorder, 1149
Lactate extraction, effect of ergonovine on, 1105
Laryngeal surgery, in elderly, 1387
Laryngopharyngeal pain, otorhinolaryngologic causes of, 679–680
Larynx, changes in, in elderly, 1377–1379
  disorders of, in AIDS, 1393–1394
Laser therapy, for acute upper gastrointestinal bleeding, 846–847
  for bleeding ulcer, 955–956
  of sinuses, 1306
Lateral sinus thrombosis, otalgia with, 678
Leao, spreading depression of, and migraine headache, 767–769
Left ventricle, abnormal, in microvascular angina, 1106
  in mitral valve prolapse, 1123
Lentigo maligna, in elderly, 1386
Leukoplakia, oral, in elderly, 1383
Lichen planus, in elderly, 1383–1384
Lidocaine, for tinnitus, 1235
Life events, and noncardiac chest pain, 1164
Lipopolysaccharides, bacterial, in urinary tract infection, 261
Lithium, effect on thyroid function tests, 36
  for cluster headache prophylaxis, 587
  for thyroid storm, 184
Liver disease, thyroid hormone indices in, 30–31
Lower esophageal sphincter pressure, in gastroesophageal reflux disease, 923
Lugol's solution, therapeutic uses for, 175–176
Lumbar puncture, headache following, in elderly, 669
Lymph node metastases, in thyroid cancer, significance of, 223
Lymphadenopathy, generalized, in AIDS, 1394
Lymphatic/blood system, in Graves' disease, 82

Magnetic resonance imaging, basic principles of, 1355–1357
  computed tomography vs, **1355–1366**
  headache diagnosis with, 540–542
  of renal inflammatory disease, 435

Malakoplakia, with chronic pyelonephritis, 458–459
Malignant disease, thyroid hormone indices in, 33
Mania, headache associated with, 709–710
Manometry, for esophageal motility disorders, 1046–1049
Masking, for tinnitus, 1234–1235
Mastocytosis, and peptic ulcer disease in children, 893
Mastoidectomy, for chronic suppurative otitis media, 1285
  for cochlear implant placement, 1269–1270
Mastoiditis, and sudden sensorineural hearing loss, 1241
  coalescent, otalgia with, 678
Maxillary sinuses, computed tomography of, 688
McGill Pain Questionnaire, for pain threshold measurement, 1194–1195
Meatus, nasal, polyp of, 1302–1303
Meclizine, for vestibular disorders, 1258
Medical disease, headache with, **631–639**
Medical-psychiatric comorbidity, in unexplained chest pain, future research on, 1214
Men, lower urinary tract in, segmented cultures of, 410, 412
  urinary tract infection in, 478
    uncomplicated, management of, 353–354
Meniere's disease, dizziness with, 1257
Meningitis, headache with, differential diagnosis of, 753, 754
    emergency treatment of, 758
Metabolic disorders, and chest pain, in mitral valve prolapse, 1124
  and sudden sensorineural hearing loss, 1242–1243
  and tinnitus, 1229
Methadone, effect on thyroid function tests, 36
Methimazole, for Graves' disease, 87–90
Methysergide, for cluster headache prophylaxis, 587
  for migraine prophylaxis, 558
Metoclopramide, for gastroesophageal reflux disease, 933
  for migraine headaches, in elderly, 662
Metronidazole, for *Helicobacter pylori* infection, 825
Microtia, computed tomography of, 1358
Microvascular angina, **1097–1118**. See also under *Angina*.
Microvascular decompression, for major neuralgias, 611–613
Middle ear, arthritis of, with aging, 1375
  atelectasis of, 1287
  clinical anatomy of, 1278
  computed tomography/magnetic resonance imaging of, 1357
  function of, 1277–1278
Midface, anatomy and neuroanatomy of, 680–682
Midfacial pain, causes of, developmental, 689–690
    inflammatory, 682–689
    neoplasms, 690–691
    neurogenic lesions, 691
    otorhinolaryngologic, 680–691
Midrin, for migraine headaches, in elderly, 662
Migraine equivalents, **567–578**
  aura without headache, 567–569
  dubious, 570–571
  in elderly, diagnosis and treatment of, 662
  investigation of, 571
  treatment of, 571–572
Migraine headache(s), **545–566**
  abortive therapy for, 554
  cerebral hemorrhage with, 574
  cerebral infarction with, 573–574
  chronic, radiology of, 531, 533, 537
  clinical characteristics of, 548–550
  cluster headache vs, 583
  complicated, **567–578**
    investigation of, 574–575
    treatment of, 575–576
  definition of, 548
  differential diagnosis of, 753, 756
  epidemiology of, 545–546
  following head injury, 644
  future therapies for, 555
  hemiplegic, 572–573
  hypoxic theory of, 764–766
  impaired central inhibition and, 769–771
  in adolescents, 656–657
  in elderly, diagnosis and treatment of, 661–663
  menstrual, treatment of, 558
  muscle contraction headaches with, 559–562
  neuronal theories of, 767–771
  ophthalmoplegic, 574, 698
  pathogenesis of, 546–547, **763–789**
  personality factors in, 549–550
  precipitating factors in, 550–551
  spreading depression of Leao and, 767–769
  treatment of, 551–559
    abortive, 551–555
    emergency, 759–760
    nonpharmacologic, 558–559
    prophylactic, 556–558
  vascular pathogenesis of, 771–772
  visual loss with, 701
  with prolonged aura, 572–573
Milk-alkali syndrome, in peptic ulcer disease, 969–970

Mind, role in unexplained chest pain, future research on, 1212–1214
Miscarriage, in hypothyroidism, 122
in thyrotoxicosis, 123
Misoprostol, as cytoprotective agent, 855
Mitral valve prolapse, **1119–1133**
auscultatory findings in, 1120–1121
chest pain in, 1122–1124
complications of, 1121
diseases associated with, 1120
relationship to panic disorder, 1125–1127
symptoms of, 1121
Mixed headache syndrome, 559–562. See also *Muscle contraction headache(s)*.
Molecular biology, advances in, effect on thyroid disorders, **41–59**
applications to medicine, 42–45
Monoamine oxidase, in migraine headache, 770
Monoamine oxidase inhibitors, for chest pain with breathlessness, 1170
for migraine prophylaxis, 557
for mixed headache syndrome, 560–561
for muscle contraction headaches, 601
in elderly, 664
Mouth, floor of, computed tomography/magnetic resonance imaging of, 1361–1363
Mucosa, atrophy of, in elderly, 1382
ischemia of, and stress ulceration, 857–858
protection of, in peptic ulcer disease, 801–809
Mucus, abnormal, in peptic ulcer disease, 802
gastric, effect of bicarbonate on, 858
role in cytoprotection, 854
Multinodular goiter, in elderly, therapy of, 153
Multiple endocrine neoplasia(s), family history of, and thyroid cancer, 212
molecular biology and, 49–51
Multiple sclerosis, trigeminal neuralgia and, 610–611
Muscle contraction, in migraine headaches, 547
Muscle contraction headache(s), diagnosis of, **595–603**
differential, 753, 757–758
etiology of, 598–599
evaluation of patient with, 599–600
following head injury, 645
in elderly, diagnosis and treatment of, 663–664
pathophysiology of, 596–598
symptomatology in, 596
treatment of, 600–602, 663–664
emergency, 760
Muscle tenderness, in muscle contraction headaches, 597
Muscular system, in Graves' disease, 82
Mycobacterial infections, bronchopulmonary, in AIDS, 1395
Myocardial contractility, abnormalities of, in subclinical hypothyroidism, 159
Myocardial infarction, thyroid hormone indices in, 34
Myocardial lactate production, during rapid atrial pacing, 1100–1101
Myocardial oxygen extraction, during pacing stress, effect of ergonovine on, 1104
Myofascial pain dysfunction, in muscle contraction headaches, 598
Myositis, idiopathic, Graves' ophthalmopathy vs, 103
Myringotomy, for chronic otitis media with effusion, 1288
Myxedema, pretibial, with Graves' disease, 91
Myxedema coma, 185–191
diagnosis of, 187
laboratory tests of, 188–189
management of, 189–191
pathophysiology of, 185–187
physical findings in, 187–188
prophylaxis for, 191
supportive measures for, 189–191

Nadolol, for migraine prophylaxis, 556
Nasal airflow, reduction in, in elderly, 1380
Nasal cavity, surface of, 1323
Nasal infection, in AIDS, 1391
Nasal medication, head-down position for, 1332–1333
Nasal obstruction, with snoring/sleep apnea, 1368
Nasal packing, for epistaxis, 1317–1318
Nasal pain, developmental causes of, 689–690
inflammatory causes of, 682–689
neurogenic lesions and, 691
Nasal polyposis, treatment and prognosis of, 1330–1331
Nasal septum, bony spur of, 690
Nasal/sinus disease, clinical findings and diagnosis in, 1329–1330
pathophysiology of, 1329
treatment and prognosis of, 1330–1334
Nasal speculum, use of, in epistaxis, 1316
Nasal tampon balloon, for epistaxis, 1318
Nasal turbinate, obstructive, 689
Nasal wall, vascular supply to, 1312–1313
Near reflex spasm, and headache, 694
Neck, computed tomography/magnetic resonance imaging of, 1361–1363
metastases in, computed tomography of, 1363
problems in, in elderly, **1373–1388**

Neoplasm, intracranial, and sudden sensorineural hearing loss, 1243
Nephritis, bacterial, acute focal, 438–443
interstitial, chronic, definition of, 243
Nephronia, acute lobar, 438–443
radiographic imaging of, 445
Nephrotic syndrome, thyroid hormone indices in, 31–32
Neuralgia, glossopharyngeal, diagnosis and treatment of, 611
postherpetic, in elderly, 670–671
preherpetic, 702
superior laryngeal nerve, 680
surgical procedures for, 611–613
Neurocirculatory asthenia, 1158
Neuroeffector junctions, autonomic, and migraine headache, 773–774
Neurogenic bladder, urinary tract infection with, natural history of, 305–308
Neurologic disorders, and tinnitus, 1229–1230
Neuronal theories, of migraine headache, 767–771
Neurosensory processing, altered, assessment of, 1194–1195
Neurosis, posttraumatic, 648
Neurotransmitter multiplicity, and migraine headache, 774–776
Neurovascular mechanism, in migraine headache, 773
Neutropenia, urinary tract infection risk in, 399–400
Nicotinic stomatitis, in elderly, 1382
Nifedipine, for chest pain with normal coronary angiogram, 1058, 1113–1114
Nimodipine, for migraine prophylaxis, 557
Nisoldipine, for chest pain with normal coronary angiogram, 1113
Nissen fundoplication, for acid-related chest pain, 1077
Nitrates, abuse of, in headache patients, 720
Nitric oxide, in migraine headache, 779–780, 782–783
Nizotidine, for duodenal ulcer disease, 986
for peptic ulcer disease, 1022
Nociception, abnormal, in chest pain syndromes, 1110–1112
Nodular goiter, **195–209**
classification of, 195–197
clinical presentation of, 198–204
diagnostic tests for, 198–204
pathogenesis of, 197–198
prevalence of, 195
problems associated with, 203
Nonsteroidal anti-inflammatory drugs, abuse of, in headache patients, 726
and peptic ulcer disease, 807–808, 834–835, 994–995
role in relapse, 1020
for migraine prophylaxis, 558
for muscle contraction headaches, 601
Nonthyroid disease, effect on thyroid function tests, **27–39**
thyroid function in, 30
Nose, anatomy of, 1311–1312
examination of, 1314
lateral wall of, anatomy of, 681
Nosebleeds, **1311–1320**. See also *Epistaxis*.
Nuclear medicine imaging, of renal inflammatory disease, 431–432
Numbness, organic causes for, incidence of, 1158
Nutcracker esophagus. See also under *Esophageal* and *Esophagus*.
and chest pain, 1046, 1137
Nutrition, in peptic ulcer disease, **967–979**
Nystagmus, positional vertigo and, 1254

Obesity, headache with, management of, 637–638
with snoring/sleep apnea, 1368
Octreotide, for gastric acid hypersecretion, 913
for metastatic gastrinoma, 916
Ocular ischemic syndrome, and headache, 696–697
Oculosympathetic paresis, and headache, 700–701
Odor hedonics, in elderly, 1380–1381
Odorant molecules, action of, 1322–1325
Olfaction, disorders of, in elderly, 1379–1381
pathophysiology of, 1329
neural pathways for, 1326
Olfactory bulb, 1325
damage to, and loss of smell, 1336
Olfactory epithelium, physiology of, 1322–1324
Olfactory neuroepithelium, degeneration of, in elderly, 1380
Olfactory receptor cells, function of, 1326
Oligemia, spreading, in migraine headache, 547
Omeprazole, as gastric proton pump inhibitor, 882
for acid-related chest pain, 1077
for bleeding ulcer, 953
for duodenal ulcer disease, 987–988
for gastric acid hypersecretion, 912–913
for gastric ulcer disease, 994
for gastroesophageal reflux disease, 933–934
for peptic ulcer disease, 837, 945
for reflux-induced esophageal stricture, 934
for Zollinger-Ellison syndrome, 988
Oncology, head and neck, in elderly, 1386–1387

Ophthalmologic aspects, of headache, **693–706**
Opiates, abuse of, in headache patients, 727
Optic neuritis, visual loss with, 701
Optic neuropathy, compressive, 106
Oral cavity, disorders of, in elderly, 1381–1383
Oral pain, otorhinolaryngologic causes of, 679–680
Orbital decompression, in thyroid eye disease, 112–114
Orbital disease, and headache, 697
Orbital radiation, for inflammatory eye disease, 110–111
Orbitopathy, mild, in Graves' ophthalmopathy, management of, 107–108
Organification defects, and neonatal hypothyroidism, 134
Oropharyngeal manifestations, of AIDS, 1391–1393
Oropharyngeal pain, otorhinolaryngologic causes of, 679–680
Osler-Weber-Rendu disease, epistaxis with, 1319
Ostiomeatal complex, computed tomography of, 1361
Otalgia, nonotogenic causes of, 678–679
  with headache, 677–679
Otitis externa, in AIDS, 1390–1391
Otitis media, and sudden sensorineural hearing loss, 1241
  chronic, **1277–1291**
    pathologic presentation of, 1279
    suppurative, 1280–1286
      appearance of, 1281
      diagnosis of, 1280–1283
      imaging of, 1282–1283
      intravenous antibiotic therapy for, 1285
      surgery for, 1285
      treatment of, 1283–1286
    types of, 1277
    with effusion, 1286–1289
      treatment of, 1288–1289
  complications of, otalgia with, 678
  in AIDS, 1390–1391
Otolaryngologic problems, in AIDS, 1390–1396
  in elderly, **1373–1388**
Otologic disorders, and tinnitus, 1228–1229
Otologic manifestations, of aging, 1374–1377
  of AIDS, 1390–1391
Otorhinolaryngologic causes, of headache, **677–692**
Otorrhea, in chronic suppurative otitis media, 1280
Ototoxicity, and sudden sensorineural hearing loss, 1243
  dizziness with, 1256
Ovulation, in hypothyroidism, 121–122
  in thyrotoxicosis, 122–123
Oxygen inhalation, for cluster headache, 589

Pain, abnormal perception of, in chest pain syndromes, 1110–1112
  threshold of, in chest pain with normal coronary arteries, **1189–1202**
    in microvascular angina, 1139
    literature on, 1197–1198
  visceral vs superficial, 1190
Palatomyoclonus, and tinnitus, 1227
Panic attack. See also *Panic disorder*.
  breathlessness in, 1158
  symptoms of, 1145
Panic disorder, **1119–1133**
  and chest pain, 1057, 1124–1125, 1..9–1180
    evaluation for, 1206
    future research on, 1213
  behavioral treatment of, 1198–1199
  clinical description of, 1144–1147
  concurrent diagnoses in, 1146–1147
  differential diagnosis of, 1151–1152
  family studies of, 1150–1151
  follow-up studies of, 1149–1150
  laboratory challenge studies of, 1148–1149
  relationship to mitral valve prolapse, 1125–1127
  with esophageal spasm, 1085
  with gastroesophageal reflux disease, 1089
  with microvascular angina, 1110
  with normal coronary arteries, validating studies for, **1143–1155**
Papillary necrosis, in diabetes mellitus, 394
  with acute pyelonephritis, 452–454
Para-aminophenol derivatives, abuse of, in headache patients, 725–726
Paracrine cells, role in gastric acid secretion, 880
Paranasal sinuses, computed tomography/magnetic resonance imaging of, 1359–1361
Parasitic infections, of renal parenchyma, 461–464
Parathyroidectomy, for gastric acid hypersecretion, 914
Parietal cell(s), and gastric acid secretion, 878–879
  as gastric acid receptors, 884
  pharmacologic actions on, 912
Parietal cell vagotomy, for gastric acid hypersecretion, 914
Parkinson's disease, and headache, in elderly, 668
Parotid gland enlargement, in AIDS, 1394
Paroxysmal hemicrania, chronic, management of, 589–590

cluster headache vs, 583
Paroxysmal positional vertigo, dizziness with, 1256
Patient education, in headache treatment, 714
Pectin, role in peptic ulcer disease, 974
Pentagastrin test, for esophageal motility disorders, 1050
Pepsin, role in peptic ulcer disease, 877
Peptic ulcer, as disease, 941–942. See also *Peptic ulcer disease.*
as sign, 942–943
benign vs malignant, differentiation of, endoscopy for, 842–843
bleeding, approach to patient with, 950–952
endoscopic therapy for, 953–958
management of, **947–965**
mortality from, risk factors for, clinical, 947–949
endoscopic, 949–950
pharmacologic therapy for, 952–953
surgical therapy for, 958–960
definition of, 841
malignancy with, endoscopic features of, 842
medical treatment of, philosophy of, 944–945
pathophysiology of, **799–814**
perspectives on, **941–946**
Peptic ulcer disease, antacids for, 969
associations with other disease, 834
bleeding in, surgery for, 1005–1006
complications in, 983
course of, **831–840**
diet and nutrition in, **967–979**
emotions and stress in, 833
endoscopy in, **841–851**
familial and genetic factors in, 833
gastric outlet obstruction in, surgery for, 1008
gender differences in, 871
headache with, management of, 637–638
healing of, 837, 983
Helicobacter pylori infection in, 821–824, 992
hydrochloric acid secretion and, 877
in children, **889–902**
complications of, 895
diagnosis of, 892–893
diseases associated with, 893–894
drug-related, 894
gastric secretion in, 890–891
genetics and heredity in, 889–890
Helicobacter pylori and, 896–898
prognosis in, 895
psychiatric factors in, 890
symptoms of, 891–892
treatment of, 895–896
incidence of, 831–835
intractable, 995–997
surgery for, 1008–1009
maintenance therapy for, 992–993, **1013–1038**
cost effectiveness of, 1028–1029
duration of, 1025–1028
recurrence with, 1022–1025
schedule for, 1029–1032
suggested approach to, 1033
management of, cost comparisons in, 846
medical treatment of, **981–998**
expectations of, 982–984
psychiatric side-effects of, 873
recent advances in, 981–982
milk therapy for, efficacy of, 969–970
morbidity and mortality in, 843
natural history of, 982–984
NSAID-associated, 994–995
perforation in, surgery for, 1007
psychologic factors associated with, **865–876**
treatment approaches to, 872–873
questionable substances in, 970–972
recurrent, 837, 984, 1015–1016
suppression with maintenance therapy, 1022–1025
surgery for, 1009
relapse in, clinical significance of, 1017
problem of, 1015–1016
risk factors for, 1017–1022
surgery for, **999–1012**
complications following, 1004
indications and choice of operation for, 1005–1010
symptoms and complications of, 835–838
Zollinger-Ellison syndrome and, **903–921**
Peptides, role in gastric acid secretion, 879–880
Perforation, in peptic ulcer disease, 837
surgery for, 1007
with relapse, 1017
Perinephric abscess, classification and clinical presentation of, 248–250
definition of, 243
in diabetes mellitus, 395
Perirenal abscess, acute, 443–450
computed tomography of, 451
Personality disorders, panic disorder vs, 1152
Personality factors, in headaches, 711
migraine, 549–550
in peptic ulcer disease, 866, 869
pH monitoring, intraesophageal, for gastroesophageal reflux disease, 924–926, 931–932
Pharmacologic side effects, and tinnitus, 1230–1231
Pharmacologic tests, for esophageal motility disorders, 1049–1050

Pharynx, computed tomography/magnetic resonance imaging of, 1361–1363
innervation of, 679
Phenacetin, abuse of, in headache patients, 725–726
Phenothiazines, for vestibular disorders, 1258
Phenytoin, effect on thyroid function tests, 35
for trigeminal neuralgia, 607–609
Pheochromocytoma, cluster headache vs, 583
Phobias, breathlessness in, 1158
Photophobia, headache with, 702–703
Physical therapy, for muscle contraction headaches, 601–602
Pirenzipine, for duodenal ulcer disease, 991
Pituitary apoplexy, and headache, 699
Plain film radiograph, of renal inflammatory disease, 426–429
Plasma expanders, for sudden sensorineural hearing loss, 1246
Platelet changes, with migraine headache, 766
Pneumocystis carinii pneumonia, in AIDS, 1395
Polyps, and chronic sinusitis, 687–688
Polysomnography, for snoring/sleep apnea, 1369–1370
Polytherapy, for mixed headache syndrome, 561–562
Postconcussion syndrome, posttraumatic headache and, **641–651**
Prednisone, for cluster headache prophylaxis, 587
Pregnancy, as euthyroid state, 125–126
bacteriuria in, asymptomatic, 245
diagnostic procedures for, 366–367
epidemiology of, 359–365
infecting organisms in, 362–363
interpretation of culture results in, 367–368
natural history of, 363–365
prevalence of, 359–360
screening for, 365–366
significance of, 363–364
goiter and, 126–127
hyperthyroidism and, 135–141
hypothyroidism and, 130–135
physiologic changes during, 361–362
thyroid disease and, **121–150**
thyroid function and, 123–130
urinary tract infection in, **359–373**
antimicrobial regimens for, 369
management of, 368–370
Prematurity, and asymptomatic bacteriuria, 364–365
Premenstrual syndrome, in hypothyroidism, 122
Presbycusis, 1261
with aging, 1375–1376
Prochlorperazine, for vestibular disorders, 1258
Prokinetic agents, for gastroesophageal reflux disease, 933
Propranolol, effect on thyroid function tests, 36
for chest pain with normal coronary angiogram, 1113
for migraine prophylaxis, 556
Propylthiouracil, for Graves' disease, 87–90
for thyroid storm, 184
Prostacyclin, in migraine headache, 778, 782–783
Prostacyclin-thromboxane balance, in migraine headache, 778–779
Prostaglandins, and migraine headache, 773
and stress ulceration, 858
as cytoprotective agents, 855
effect on gastric acid secretion, 883, 912
for duodenal ulcer disease, 990–991
for stress ulceration, 859
in gastric mucosal protection, 853
role in peptic ulcer disease, 802, 807
Prostate, obstruction of, and long-term catheterization, 483
secretory dysfunction of, 413–414
Prostatic calculi, infected, in chronic bacterial prostatitis, 417–418
Prostatic fluid, alterations in, with bacterial prostatitis, 414
examination of, in prostatitis diagnosis, 409–410
Prostatitis, **405–424**
bacterial, acute, 415–417
chronic, 417–419
immune response in, 411–413
prostatic fluid alterations with, 414
clinical features of, 407
definition of, 244
diagnosis of, methods of, 409–411
etiology of, 406–408
localization of infection in, bacteriologic cultures for, 410–411
nonbacterial, 419–420, 477–478
pathogenesis of, 408–409
pharmacokinetics in, 414–415
role of urologist in, 477
types of, 405–406
Prostatodynia, 420–422
role of urologist in, 478
Prostatosis, 419–420, 477–478
Protein(s), production of, molecular biology and, 42–43
Protein therapeutics, rational drug design in, 43–44
Proton pump inhibitors, for duodenal ulcer disease, 987–988
Pruritus, of external ear canal, with aging, 1375

Pseudotumor cerebri, and progressive headaches, in adolescents, 658
visual loss with, 702
Psychiatric aspects, of headache, **707–715**
Psychiatric disorder, thyroid hormone indices in, 33–34
with esophageal disorders, **1081–1096**
therapeutic implications of, 1091–1092
with esophageal motility disorders, 1048
with esophageal spasm, 1085
with gastroesophageal reflux disease, 1088–1090
with noncardiac chest pain, 1164
diagnostic validity of, 1144
future research on, 1210, 1212–1214
Psychiatric referral, for chest pain with breathlessness, 1166–1167
Psychogenic headaches. See *Muscle contraction headache(s)*.
Psychologic factors, and tinnitus, 1231–1232
in peptic ulcer disease, 808–809, **865–876**
Psychosis, posttraumatic, 648
Psychosocial adjustment, in noncardiac chest pain, 1196
Psychotherapy, in headache treatment, 714
in peptic ulcer disease, 872
Pupillary abnormalities, and headache, 699–701
Putty kidney, with renal tuberculosis, 463
Pyelography, retrograde, 429–431
Pyelonephritis, acute, bacterial, 437–438
classification and clinical presentation of, 247
complications of, 450–455
computed tomography of, 440, 444
economic considerations in, 506–509
excretory urogram of, 439
magnetic resonance imaging of, 441
natural history of, 303–305
ultrasonography of, 440, 442–443
uncomplicated, in women, management of, 347–350
chronic, 456–460
definition of, 243
emphysematous, in diabetes mellitus, 395
with acute pyelonephritis, 450–453
recurrent, risks of, 341
subclinical, classification and clinical presentation of, 247–248
xanthogranulomatous, 456–459
computed tomography of, 459
plain film of, 458
Pyloric stenosis, dilation of, in peptic ulcer disease 848
Pyloroplasty, for bleeding ulcer, 960
Heineke-Mikulicz, for peptic ulcer disease, 1000–1001
Pyonephrosis, with acute pyelonephritis, 454–455
Pyuria, assays for, in urinary tract infection diagnosis, 321
in children, in urinary tract infection, 330
in elderly, laboratory diagnosis of, 383
urinalysis of, 314–315

Radiation, exposure to, and thyroid cancer, 212
Radical neck dissection, in elderly, 1387
Radioactive iodine, for Graves' disease, 85–57
for maternal thyrotoxicosis in pregnancy, 139
Radiographic assessment, of gastroesophageal reflux disease, 930–931
Radionuclide scintigraphy, in gastroesophageal reflux disease, 931
Radionuclide tests, in microvascular angina, 1107
Raeder's syndrome, and headache, 700–701
cluster headache vs, 583
Ranitidine, for acid-related chest pain, 1077
for duodenal ulcer disease, 986
for gastric ulcer disease, 994
for gastroesophageal reflux disease, 932
for peptic ulcer disease, in children, 896
maintenance therapy with, duration of, 1026
schedule for, 1031
relapse prevention with, 1022
Reassurance, for chest pain with breathlessness, 1167–1168
Recombinant DNA, and diagnostics, 44–45
Reflux gastritis, alkaline, following peptic ulcer surgery, 1004
Renal. See also *Kidney*.
Renal abscess, acute, 443–450
classification and clinical presentation of, 248–250
computed tomography of, 446–449, 451
excretory urogram of, 446, 448
percutaneous drainage of, 448
ultrasonography of, 450
Renal calculus, plain film radiograph of, 429
plain film tomography of, 428
urinary tract infection with, natural history of, 308–309
Renal fascia, anatomy of, 433
Renal inflammatory disease, acute, 437–450
risk factors for, 426
radiologic studies of, computed tomography, 432–434
diagnostic and therapeutic, 425–435
excretory urogram, 429–431
interventional uroradiology, 434–435
magnetic resonance imaging, 435
nuclear medicine imaging, 431–432

Renal inflammatory disease *(Continued)*
plain film radiograph, 426–429
retrograde pyelography, 429–431
ultrasonography, 431
Renal mass, focal, with acute bacterial pyelonephritis, differential diagnosis of, 431
Renal parenchyma, fungal and parasitic infections of, 461–464
Renal transplant recipients, urinary tract infection risk in, 396–398
Renal tuberculosis, 460–463
lobar calcifications in, 430
spectrum of, 462–461
Respiratory complaints, with gastroesophageal reflux disease, 929
Respiratory rate, in chest pain with breathlessness, 1167
Respiratory system, in myxedema coma, 185–186
Respiratory tract infection, upper, taste/smell loss following, 1334–1335
Rhinologic pain, otorhinolaryngologic causes of, 680–691
Rhinologic problems, in AIDS, 1391
in elderly, 1379–1381
Rhizotomy, radiofrequency, for major neuralgias, 611–613
Riedel's thyroiditis, 73–74
Roux-en-Y reconstruction, following gastrectomy, for peptic ulcer disease, 1004
Rumination syndrome, psychiatric disorder with, 1091

Salicylates, abuse of, in headache patients, 724–725
effect on thyroid function tests, 35
Salivary glands, computed tomography of, 1363–1364
magnetic resonance imaging of, 1363–1364
problems of, in AIDS, 1394
Salt, role in peptic ulcer disease, 971
Scarring, and posttraumatic headaches, 647
Secretin, role in gastric acid suppression, 884
Secretin injection test, for Zollinger-Ellison syndrome, 907–908
Segmented cultures, for bacterial prostatitis, 412
Seizures, following head injury, 645
Semen, examination of, in prostatitis diagnosis, 409–410
Sensorineural hearing loss, sudden, **1239–1250**
diagnosis of, 1243–1245
etiology of, 1240–1243
incidence of, 1240
prognosis and outcome in, 1247–1248
treatment of, 1244–1247
medical, 1245–1247
surgical, 1247
Sensory decision theory tasks, for pain threshold measurement, 1194–1195
Sensory nerves, in migraine headache, 776–777
Sensory stimulation, and migraine headache, 766
Serotonin, in migraine headache, 769–771, 782–783
in muscle contraction headaches, 597
Serum, bactericidal effect of, resistance to, 262
Sexual activity, headache associated with, 737–739
Sexual intercourse, and urinary tract infection in women, 341
Shear injury, chronic headache in, 540
Sighing respiration, clinical significance of, 1160
Sinus(es), anatomy of, 1294–1296
disease of, diagnosis and treatment of, **1293–1309**
team approach to, 1299–1303
endoscopic surgery of, 1304–1306
complications of, 1306
definition of, 1293
instruments for, 1301
research in, 1306
laser therapy of, 1306
pathophysiology of, 1296–1297
physiology of, 1295–1296
Sinusitis, acute, purulent, facial pain in, 682, 685
chronic, changing concepts of, 1298–1299
facial pain in, 687–689
nasal endoscopy for, 1298
presenting symptoms of, 1297–1298
treatment and prognosis of, 1330–1334
endoscopic surgery of, 1298, 1304–1306
goal of therapy in, 1294
pain radiation from, ethmoid, 685
frontal, 684
maxillary, 683
multiple-sinus, 687
sphenoid, 686
radiologic technique for, 1303–1304
Sixth nerve palsy, and headache, 698
Skeletal system, in Graves' disease, 82
Skin, in Graves' disease, 82
Sleep apnea, obstructive, **1367–1371**
management of, 1370
pathophysiology of, 1367–1369
physical examination for, 1369
polysomnography for, 1369–1370
Sleep changes, and migraine headache, 550
Smell, disorders of, **1321–1353**

causes of, 1339–1340
initial evaluation of, 1328
medications associated with, 1343–1344
loss of, following head trauma, 1335–1338
clinical findings and diagnosis of, 1337–1338
management and prognosis of, 1338
pathophysiology of, 1335–1337
following upper respiratory tract infection, 1334–1335
perception of, anatomy and physiology of, 1322–1326
Smooth muscle dysfunction, and abnormal coronary vascular responses, 1109
in depression and panic disorder, proposed research on, 1185
Snoring, **1367–1371**
in children, 1368–1369
management of, 1370
pathophysiology of, 1367–1369
physical examination for, 1369
polysomnography for, 1369–1370
Somatization disorder, in noncardiac chest pain, 1057
panic disorder vs, 1152
with gastroesophageal reflux disease, 1089
Somatoform disorders, headache associated with, 708–709
Somatostatin, for bleeding ulcer, 953
role in gastric acid secretion, 880–883
Sphenoid sinuses, computed tomography of, 688
Spices, role in peptic ulcer disease, 971–972
Spinal cord injury, urinary tract infection with, natural history of, 305–308
Spiral organisms, gastric, search for, 815–816
Spreading depression, of Leao, and migraine headache, 767–769
Squamous metaplasia, with chronic pyelonephritis, 458–459
Staghorn renal calculus, plain film radiograph of, 429
Staircase method, for pain threshold measurement, 1192–1194
Stapedial muscle spasm, idiopathic, and tinnitus, 1227–1228
Status migraine, therapy for, 555
Stomatitis, nicotinic, in elderly, 1382
Streptozotocin, for metastatic gastrinoma, 916
Stress, and gastroesophageal reflux disease, 1089
and headaches, 711
migraine, 550
and noncardiac chest pain, 1164
management of, for tinnitus, 1235
reduction of, in headache treatment, 713–714
role in peptic ulcer disease, 808–809, 869–870
Stress ulceration, 856–859
clinical course with, 858
cytoprotection and, **853–863**
in children, 894–895
pathogenesis of, 857
surgery for, 1006–1007
therapy for, 858
Subarachnoid hemorrhage, headaches due to, 617–621
Subdural hematoma, headaches due to, 623–624
Substance abuse, and headache, **717–732**
in panic disorder, 1147
in peptic ulcer patients, 871
Sucralfate, as cytoprotective agent, 855
for duodenal ulcer disease, 986, 988–989
for gastric ulcer disease, 994
for gastroesophageal reflux disease, 933
for peptic ulcer disease, in children, 896
relapse with, 1019, 1021, 1023
for stress ulceration, 859
Surgery, for tinnitus, 1236
thyroid hormone indices in, 34
Swallowing, difficulty with, with gastroesophageal reflux disease, 929
mechanism of, in elderly, 1379
tests of, for esophageal motility disorders, 1050
Sympathomimetic amines, abuse of, in headache patients, 727
Syncope, dizziness with, 1255
Syndrome X, **1097–1118**. See also *Angina, microvascular*.
Syphilis, and sudden sensorineural hearing loss, 1241

Tachyarrhythmia, in thyroid storm, 181
Tachycardia, in thyroid storm, 181
Tamoxiphen, effect on thyroid function tests, 35
Taste, disorders of, **1321–1353**
causes of, 1341–1342
in elderly, 1379–1381
initial evaluation of, 1328
medications associated with, 1343–1344
loss of, following head trauma, 1335–1338
clinical findings and diagnosis of, 1337–1338
management and prognosis of, 1338
pathophysiology of, 1335–1337
following upper respiratory tract infection, 1334–1335
neural pathways for, 1327
perception of, 1326–1327
Taste buds, anatomy of, 1327
Temporal arteritis. See *Arteritis*.

Temporal bone, computed tomography/magnetic resonance imaging of, 1357
Temporomandibular joint, dysfunction of, chronic headache in, 533, 536, 539
otalgia in, 679
in muscle contraction headaches, 598
Tension-type headaches, **595–603**. See also *Muscle contraction headache(s)*.
Thermal coagulation, for bleeding ulcer, 954
Thermoregulation, impaired, in myxedema coma, 186
Thionamide, for maternal thyrotoxicosis in pregnancy, 138
Third nerve palsy, and headache, 697–698
Throat complaints, with gastroesophageal reflux disease, 930
Thyrocardiac disease, iodine for, 175
Thyroglobulin, serum, measurement of, 12–13
Thyroid autoantibodies, measurement of, 13–15
Thyroid crisis, **179–193**
Thyroid dermopathy, with Graves' disease, 91
Thyroid eye disease, extraocular muscle surgery in, 114–115
eyelid surgery in, 115–116
immunologically induced, mechanisms of, 98
inflammatory, fibrotic vs, 108–109
treatment of, 109–111
moderate, 107
orbital decompression in, 112–114
severe, management of, 108
surgical treatment of, 111–116
Thyroid follicles, colloid accumulation in, with iodine therapy, 176
Thyroid gland, assessment of, 1–15
physiology and pathophysiology of, 1–3
basic science advances related to, 45–46
cancer of, **211–234**
anaplastic, surgical problems with, 222
differentiated, recurrent, deaths due to, 224
treatment of, 222
evaluation of patients for, 213–214
factors predisposing to, 212–213
in elderly, 162
in pregnancy, 142
medullary, total thyroidectomy for, 221
mortality from, influence of initial treatment on, 219
surgical therapy of, rationale for, 217–224
survival curves for, 217
thyroglobulin as marker in, 12–13
types of, cyclase responsiveness of, 220
disease of, and pregnancy, **121–150**
and reproductive dysfunction, 121–123
autoimmune, molecular biology and, 52–53
in elderly, **151–167**
iodine and, **169–178**
management of, in Graves' ophthalmopathy, 107
nodular, in pregnancy, 142
postpartum, 141
dysgenesis of, and hypothyroidism, 133
function of, and pregnancy, 123–130
fetal and neonatal, 127–130
in elderly, anatomy and physiology of, 151–153
regulation of, 169–170
tests of, clinical utility of, 16
effect of drugs on, 34–36
effect of nonthyroid disease on, **27–34**
for thyroid cancer, 213
in pregnancy, 123–125
laboratory evaluation of, **1–26**
clinical use of, 15–20
lymphoma of, 225
malignancies of, implications for therapy of, 51–52
molecular biology of, **41–59**
defects in function, 55
malignancies, 46–48
nodules and neoplasia, 48–49
nodules of, and thyroid cancer, 212
medical treatment of, 215–217
percutaneous aspiration biopsy cytology of, 214–215
serum thyroglobulin levels in, 216
tumors of, malignant, rare, 224–225
Thyroid hormone(s), indices of, in specific clinical conditions, 29–34
placental transfer of, 129–130
replacement of, for myxedema coma, 189–191
resistance to, molecular biology and, 54–55
Thyroid receptor antibody, in Graves' disease, 80
Thyroid storm, 179–185
causes of, 180
clinical features of, 181
laboratory tests for, 182–183
management of, 183–185
pathophysiology of, 179–180
precipitating factors in, 182
supportive therapy for, 185
Thyroidectomy, for goiter, 206
for thyroid cancer, benefits of, 218
selection of patients for, 212–213
for thyroid storm, 184
operative technique of, 225–226
postoperative care in, 226–228
Thyroiditis, **61–77**
acute, 61–63

chronic, 70–74
diffuse thyroid enlargement with, 200
lymphocytic, 70–73
clinical manifestations of, 71–72
etiology and pathogenesis of, 70–71
laboratory diagnosis of, 72
treatment of, 72–73
invasive fibrous, 73–74
subacute, 63–70
granulomatous, 63–66
clinical manifestations of, 64–65
diagnosis of, 65–66
etiology of, 63–64
treatment and clinical course of, 66
lymphocytic (painless), 66–70
clinical manifestations of, 68
etiology and pathogenesis of, 67–68
Graves' disease vs, 69
laboratory diagnosis of, 68
treatment and clinical course of, 68–70
Thyroid-stimulating hormone, measurement of, 3–6
response to SSKI, 174
Thyrotoxicosis. See also *Hyperthyroidism*.
and reproductive dysfunction, 122–123
atypical, and thyroid storm, 181
clinical features of, 181
crisis in, iodine for, 175
fetal and neonatal, 140–141
Graves' disease vs, 83
in elderly, 160–162
maternal, in pregnancy, beta-blockers for, 139
diagnosis of, 137
effect on pregnancy, 137
etiology and course of, 135–136
treatment of, 137–139
pre-existing, documentation of, in thyroid storm, 180–182
Thyroxine, for goiter, 206
for hypothyroidism in elderly, 156
free. See *Free thyroxine*.
high and low states of, 29
measurement of, 11
response to SSKI, 174
suppression therapy with, monitoring of, 20
Timolol, for migraine prophylaxis, 556
Tinidazole, with bismuth, for *Helicobacter pylori* infection, 825
Tinnitus, management of, **1225–1237**
measurement of, 1232–1233
medical evaluation of, 1232
medications for, 1235
objective, 1225–1228
causes of, 1226
mechanical, 1227–1228
vascular, 1225–1227
subjective, 1228–1232
causes of, 1228
treatment of, 1233–1236
Tolosa-Hunt syndrome, and headache, 698–699
Tongue, computed tomography/magnetic resonance imaging of, 1361–1363
Transcutaneous electrical nerve stimulation, for muscle contraction headaches, 602
Transfusion, for bleeding ulcer, 952
Transient ischemic attacks, dizziness with, 1255
headache in, 624
Transplant recipients, urinary tract infection risk in, 396–399
Trauma, dizziness with, 1255
facial, epistaxis with, 1319
thyroid hormone indices in, 34
Trazodone, for esophageal disease, 1092
for noncardiac chest pain, 1058
Tricyclic antidepressants. See *Antidepressants*.
Trigeminal neuralgia, 605–609
clinical features of, 605
cluster headache vs, 583
in elderly, 665–666
treatment of, medical, 607–609
new developments in, 609
pathophysiology of, 609–610
trigger zones in, 606
with multiple sclerosis, 610–611
radiology of, 538
Trigeminal neuropathy, chronic headache in, radiology of, 533
Triiodothyronine, low states of, causes of, 28–29
total and free, measurement of, 11–12
TSH. See *Thyroid-stimulating hormone*.
Tuberculosis, renal, 460–463
lobar calcifications in, 430
spectrum of, 462–463
Tumors, headache with, differential diagnosis of, 755–756
Tympanic membrane, destruction of, in chronic suppurative otitis media, 1282
Tympanoplasty, for chronic suppurative otitis media, 1285
Tyramine-restricted diet, for migraine prevention, 552–553

Ulcer(s). See also *Duodenal ulcer*; *Gastric ulcer*; *Peptic ulcer*.
bleeding, management of, **947–965**
Ulcerogenic drugs, use in peptic ulcer disease, relapse rate with, 1020
Ultrasonography, for gastrinoma localization, in Zollinger-Ellison syndrome, 909, 910
of renal inflammatory disease, 431–432

Universal precautions, for HIV transmission prevention, 1396
Upper respiratory tract infection, taste/smell loss following, 1334–1335
Ureter, host defenses in, against urinary tract infection, 279–280
Urethra, catheterization of, prevention of, 488–489
  urinary tract infection from, 276
Urethral syndrome, acute, classification and clinical presentation of, 246–247
    definition of, 243
  in urinary tract infection, 474
Urinalysis, in urinary tract infection, 313–316
Urinary beta-2 microglobulin, in urinary tract infection localization, 320
Urinary calculi, urinary tract infection with, natural history of, 308–309
    predisposing factors for, 282
Urinary catheterization, urinary tract infection with, 276
    natural history of, 306–307
Urinary collection, external devices for, 488
Urinary concentrating ability, maximal, in urinary tract infection localization, 320
Urinary frequency, causes of, 246
Urinary incontinence, and long-term catheterization, 483
Urinary tract, antiadherence mechanisms in, 259–261
  host defenses in, 277–281
  infection of. See *Urinary tract infection(s)*.
  obstruction of, and urinary tract infection, 392
    predisposing factors for, 282
Urinary tract infection(s), **241–252**
  and circumcision, epidemiology of, 288–289
  bacteriology of, 253–254
  catheter and, **481–493**
  chronic, definition of, 244
  classification of, 244–250
  clinical presentation of, 244–250
  complicated, factors associated with, 340
    natural history of, 305–309
  definition of, 241–244
  diagnosis and management of, laboratory in, **313–325**
  diagnostic studies of, indications for, 476
    sensitivity and specificity of, 331
  economic considerations in, **495–513**
  Escherichia coli in, virulence of, 254–255
  hematogenous, 277
  in adults, **299–312**
    asymptomatic, 301–303
    definitions in, 300
    historical perspectives on, 299–300
    uncomplicated, 301
  in children, **287–297**, **327–338**. See also under *Children*.
  in diabetes mellitus, complications of, 394–396
  in elderly, **375–390**. See also *Elderly*.
  in impaired host, **391–404**
  in infants, 333–334
  in men, 478
  in pregnancy, **359–373**. See also *Pregnancy*.
  in women, 475–476
  localization of, noninvasive methods of, 318–320
  lower, acute, economic considerations in, 497–503
      diagnosis, 498–501
      follow-up, 502
      future directions, 503
      recommendations, 502
      treatment, 501–502
    classification and clinical presentation of, 245–246
  nosocomial, economic considerations in, 503–506
  office diagnosis of, 320–322
  pathogenesis of, bacterial etiologic agents in, **253–273**
    host defense mechanisms in, **275–286**, 391–393
  predisposing factors for, 281–282
  risk of, in impaired populations, 393–400
  role of urologist in, **471–479**
  routes of, 276–277
  terminology for, clinical, 243–244
    microbiologic, 241–242
    treatment, 244
  uncomplicated, definition of, 339–340
    in adults, management of, **339–357**
      men, 353–354
      women, 339–353. See also under *Women*.
    pathogenesis of, 340–342
  upper, classification and clinical presentation of, 247
  with catheterization, prevention of, 485–489
Urine, culture of, for acute dysuria, economic considerations in, 500
    for asymptomatic bacteriuria in pregnancy, 366–367
    in urinary tract infection, 316–318, 322
  host defenses in, against urinary tract infection, 277–278
  microscopy of, in urinary tract infection diagnosis, 321
Uroepithelial cells, bacterial adherence to, 255–259
Urogram, excretory, 429–431
Urologist, role of, in urinary tract infection, **471–479**

Uropathogens, non-*Escherichia coli*, virulence factors in, 267
origin of, 275–276
types of, 275
Urosepsis, classification and clinical presentation of, 250
definition of, 244
Uveitis, and headache, 695–696

Vaginal introitus, host defenses in, against urinary tract infection, 278–279
Vagotomy, gastric, for peptic ulcer disease, 1003–1004
parietal cell, for gastric acid hypersecretion, 914
truncal, for bleeding ulcer, 960
for peptic ulcer disease, 1000–1001
Vagus nerve, role in gastric acid suppression, 883
Vascular disorders, and sudden sensorineural hearing loss, 1242
Vascular headaches, following head injury, 645
migraine headaches as, 546, 766, 771–772
Vascular malformations, acute headache in, radiology of, 526, 531
Vasodilators, for sudden sensorineural hearing loss, 1245
Vasopressin, for bleeding ulcer, 953
Venous angioma, with hemorrhage, acute headache in, radiology of, 534–535
Venous hum, and tinnitus, 1226–1227
Venous sampling, for gastrinoma localization, in Zollinger-Ellison syndrome, 910
Verapamil, for chest pain with normal coronary angiogram, 1113
for cluster headache prophylaxis, 587
for migraine prophylaxis, 557
Vertebral artery, dissecting aneurysm of, headache in, 626–627
Vertebrobasilar artery, occlusion and stenosis of, headache in, 625
Vertigo. See also *Dizziness*.
benign paroxysmal, as migraine equivalent, 570
peripheral vs central, 1253
positional, and nystagmus, 1254
benign, with aging, 1377
paroxysmal, dizziness with, 1256
rehabilitation in, 1259
surgical treatment of, 1258–1259
with aging, 1376
Vesicoureteral reflux, in urinary tract infection, 473
in children, 293–294
Vestibular function, disorders of, and dizziness, treatment of, 1257–1259
in aging, 1374–1377
testing of, in dizziness, 1254
Vestibular neuritis, dizziness with, 1256
Viral infection, and sudden sensorineural hearing loss, 1241
Virulence factors, in urinary tract infection, correlative pathogenic signficance of, 263–264
experimental animal models of, 265
in vivo adaptation of, 264–265
Visceral nociception, abnormal, in microvascular angina, 1138–1139
Visual loss, with headache, 701–702
Vitamin U, role in peptic ulcer disease, 975
Voice, changes in, in elderly, 1377–1379

Waterbrash, with gastroesophageal reflux disease, 930
Weight loss, in thyrotoxicosis in elderly, 160
Wheezing, with gastroesophageal reflux disease, 929
Withdrawal therapy, for mixed headache syndrome, 562
Wolff-Chaikoff effect, with iodine excess, 173
Women, acute cystitis in, uncomplicated, management of, 345–348
multiday regimens, 346–347
single-dose regimens, 345–346
acute pyelonephritis in, uncomplicated, management of, 347–350
bacteriuria in, 473–474
dysuria in, diagnosis of, 498
urinary tract infection in, 475–476
sexual intercourse and, 341
uncomplicated, antimicrobial treatment of, 342–345
common pathogens in, 342
recurrent, 350–353
urine culture for, posttreatment, 350
pretreatment, 342
Wound healing, in elderly, 1373–1374

Xerostomia, in AIDS, 1394
in elderly, 1381

Zollinger-Ellison syndrome, **903–921**
and peptic ulcer disease in children, 894
clinical presentation of, 905–906
diagnosis of, 907–908
hypergastrinemia in, 905
pathogenesis of, 904–905
pathology of, 903–904
tumor localization in, 908–911
